

## Vacancy for Lead SINAPSE Research Scientist

### Reference Number

009893

### Position Type

Full Time

### Salary Range

£33,242 - £37,394

### Job Purpose

A key member of the SINAPSE Project, accountable to the Management Committee and the CEO for the general management of SINAPSE through the effective coordination of activity and use of resources. The post-holder will ensure the effective control of budgets including staffing and finance; maintain the Project's national and international profile through effective marketing and publicity; ensure the effective project management of multi-centre initiatives and identify projects that might attract funding. The post-holder will be expected to spend around 50% of time on SINAPSE co-ordination and networking and the remaining 50% on imaging related research projects. These projects should involve more than one SINAPSE partner organisation.

Closing date for applications 3<sup>rd</sup> Feb.
