Radiochemistry and Tracer Development

Monday 5th February 2018

10:30-16:00

**Carnegie Lecture Theatre (C3-05)
Joseph Black Building
School of Chemistry
University of Glasgow**

Researchers in Scotland will present their work on radiochemistry and tracer development with a particular focus on the synthesis and application of new radiotracers. The meeting will provide an opportunity for early career scientists and students in the field to present their work. Research will be discussed in an open environment with the aim of stimulating further collaborations between SINAPSE groups.

The following Universities are charitable bodies, registered in Scotland, with registration numbers as below.
