

Imaging Capacity

For Brain Imaging Research SINAPSE uses the technologies of MRI, fMRI, PET/CT and EEG/ERP.

SINAPSE has played a key part in building the imaging capacity in Scotland, with key equipment development on going in the four main imaging centres of Aberdeen, Dundee, Edinburgh and Glasgow.

Poster prepared by Dr Janet De Wilde, SINAPSE Coordinator For more Information see www.sinapse.ac.uk

SINAPSE has undergone a joint tendering process to procure MRI compatible EEG systems and fMRI visual stimulus and recording equipment enabling multicentre trials.

The following Universities are charitable bodies, registered in Scotland, with registration numbers as below.
