

Instructions for setting up the WMU Training Experiment (only needs to be done once)

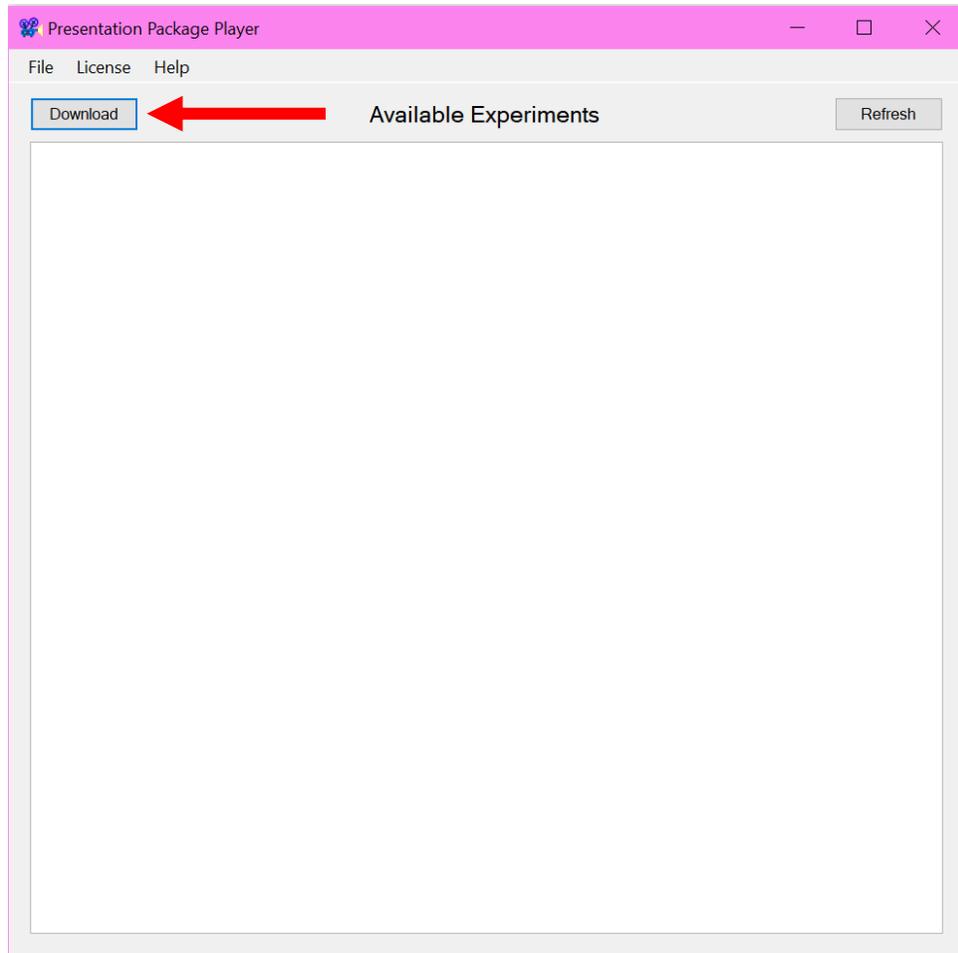

Step 1: Click **Delete** to delete the practice experiment

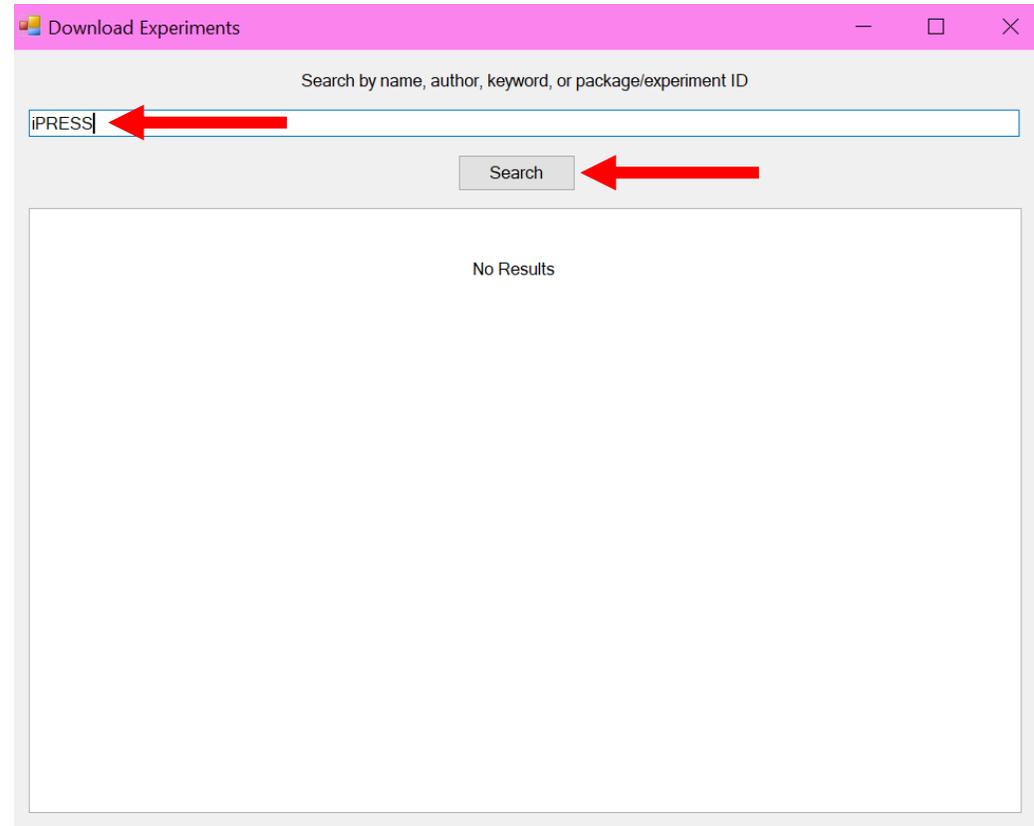

Step 2: Click **yes** when this message appears

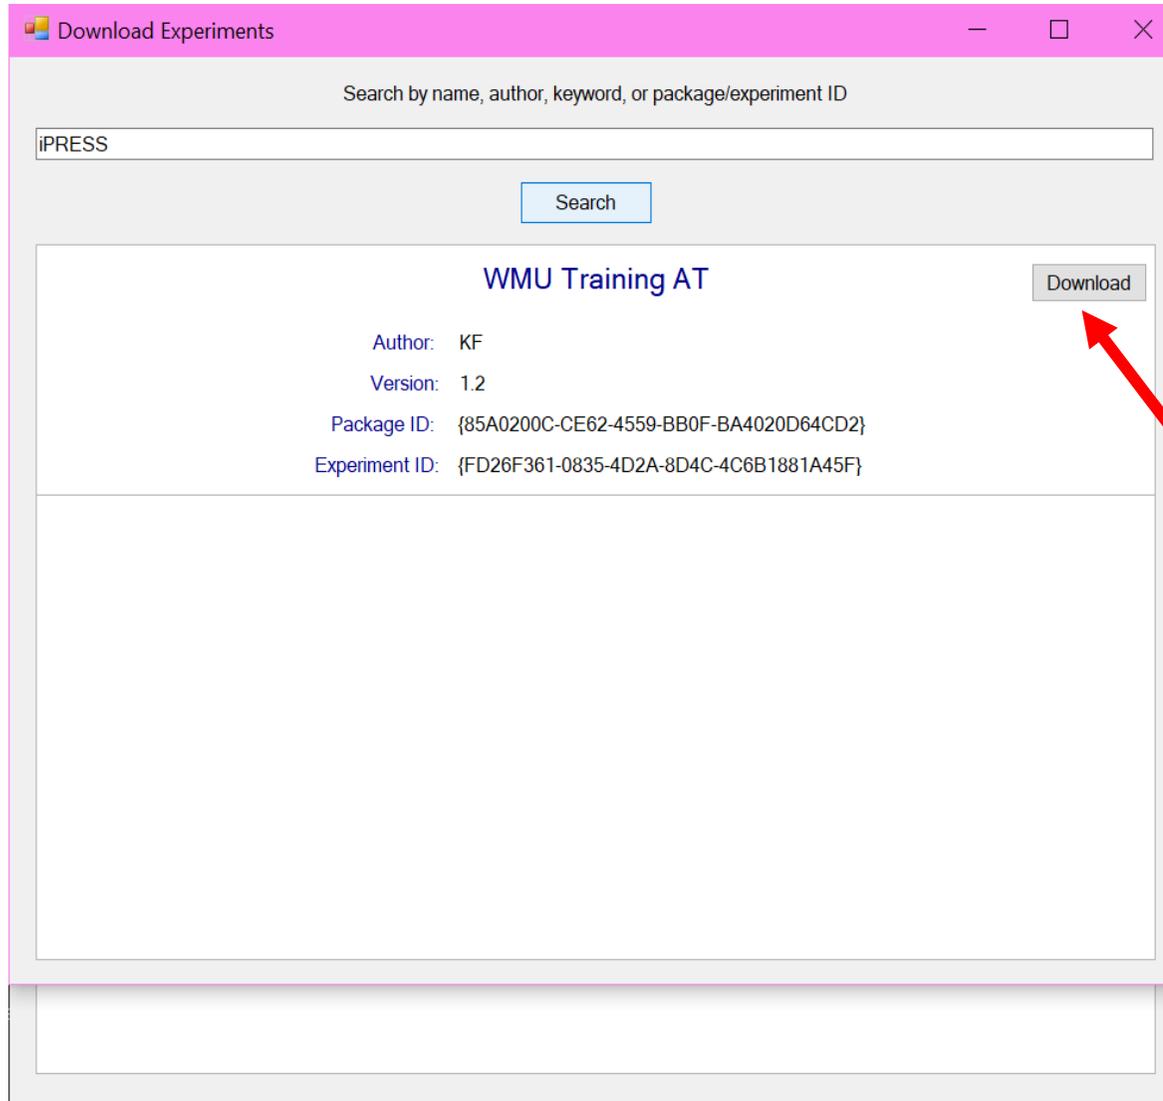

Step 3: The experiments screen is empty again. Click **Download**.

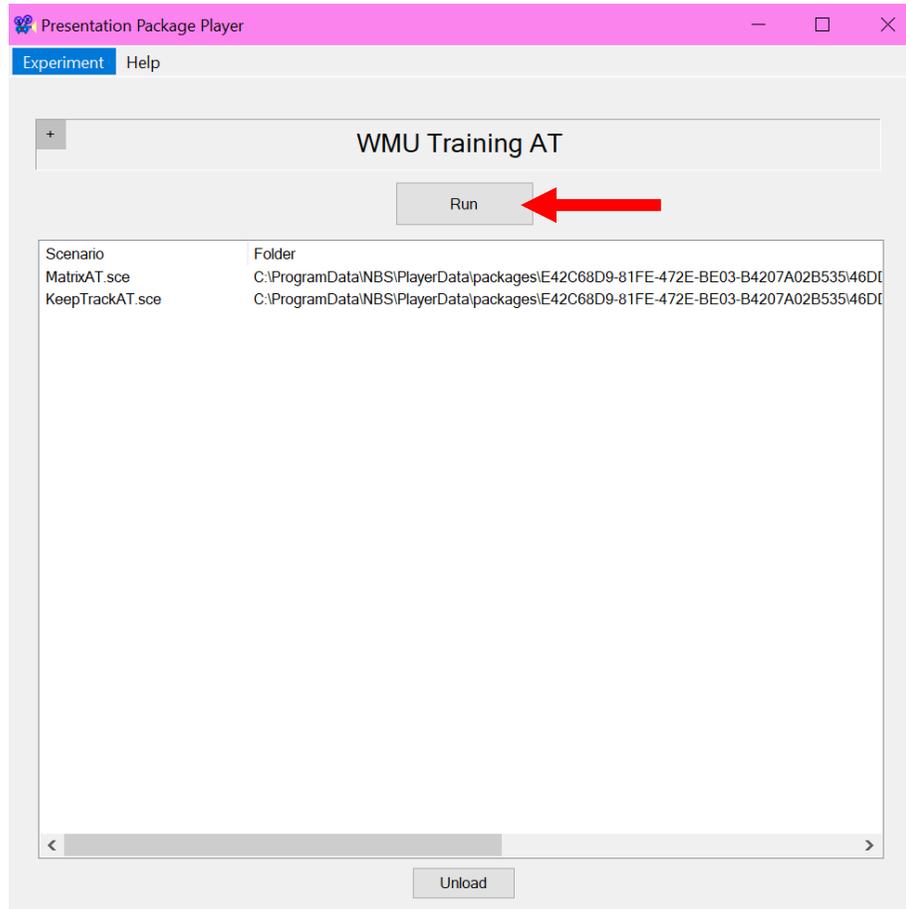

Step 4: Type **iPRESS** and then click **Search**

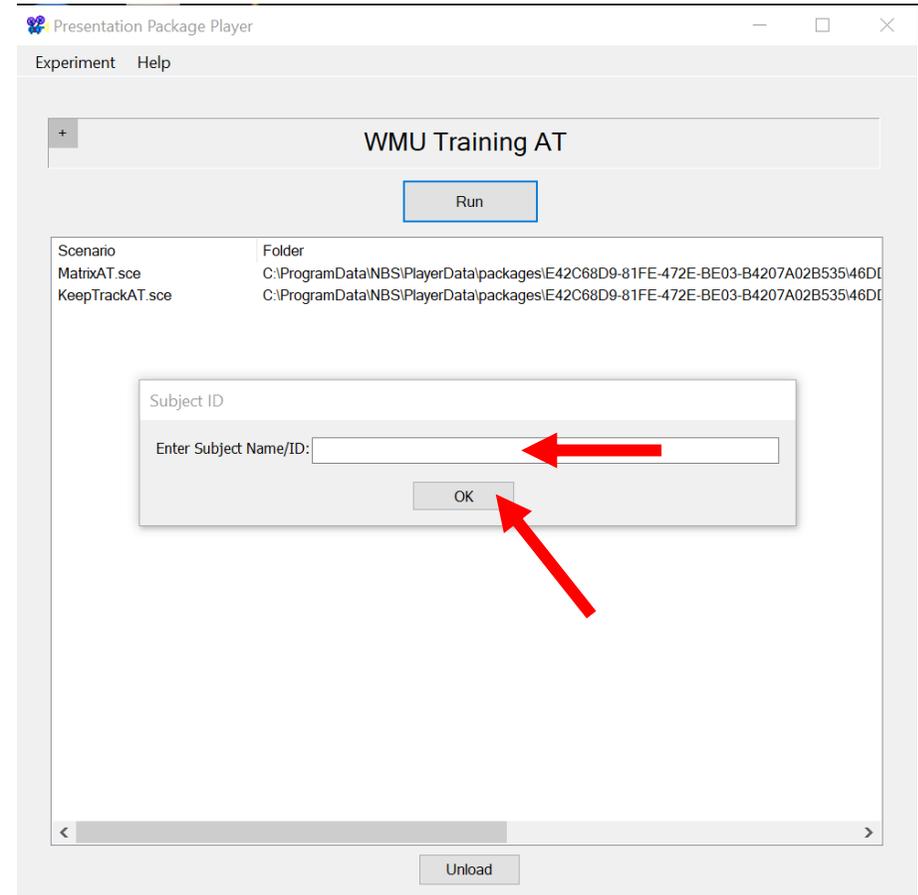

Step 5: Click **Download** on WMU Training AT

Step 5: Click **Run** to start the training session

Step 6: Type the **Subject ID** I have assigned for you and then click **OK**

This can now stay as is for the duration of the training.

Instructions to follow for EACH training session

1. Make sure that you have a free hour available and somewhere comfortable to sit with minimal distractions (mobile phone set aside, no TV playing in the background).
2. View the practice tutorials to remind yourself of the tasks before you begin the first training session*. [Click here to view the video practice tutorial](#)
3. Open the Presentation player pinned on your taskbar and click Open for the WMU Training AT experiment, then press Run to start the training session.
4. Enter your Subject ID when prompted: Follow the on-screen instructions and complete the first training task.
5. If you wish, take a short break before beginning the second training task.
6. Follow the on-screen instructions and complete the second training task.
7. The program will automatically upload your data files; wait for the Upload Status window to close before you exit the software.
8. Now you can exit the software
9. Your Subject ID will remain the same throughout the training duration.

If you have questions or encounter any computer errors during the session, call Katerina at 0742 9833 059. If you cannot reach Katerina, you can email Kristin at kristin.flegal@glasgow.ac.uk

*** Applicable for the first training session only**
