

Cell, Developmental & Cancer Biology Imaging Symposium

'From Molecule to Man: State of the Art Imaging'

L7 Conference Room, Institute of Medical Sciences (IMS)

June 25th 2014

- | | |
|----------------------|--|
| 13.00 onwards | <i>Registration and Lunch</i> |
| 13.30 | <i>Welcome and Introduction</i>

Dr Russell Petty, Clinical Senior Lecturer in Medical Oncology, University of Aberdeen |
| 13.35 | Neuro-imaging at the cutting edge

Prof Alison Murray , Roland Sutton Chair of Radiology, University of Aberdeen |
| 1350 | Tau based PET tracers in Alzheimer's disease

Dr Franklin Aigbirhio, Director of PET Chemistry, Wolfson Brain Imaging Centre, University of Cambridge |
| 1430 | The Broken Heart

Dr Dana Dawson, Clinical Senior Lecturer in Cardiology, University of Aberdeen |
| 1445 | Long-lived states enhanced MRI: a new way of getting contrast and imaging slow flow

Dr. Giuseppe Pileio, Senior Research Fellow, School of Chemistry, University of Southampton |
| 15.30 -1600 | <i>Networking Coffee Break</i> |
| 16.00 -16.15 | Novel Radiotracer Development: more than meets the eye....

Prof Matteo Zanda, Chair in Medical Technologies, University of Aberdeen |
| 16.15 | PET imaging of radiolabeled drugs: shedding light on drug development

Prof. dr. Guus van Dongen, Department of Nuclear medicine and Imaging, Vrije Universiteit University Medical Center, Amsterdam |
| 1700 onwards | <i>Cheese & Wine in IMS atrium</i> |
