

Scottish Imaging Network:
A Platform for Scientific Excellence
Psychology Group Meeting

Tuesday May 8th 2018

10:30 am - 4.00 pm

Yudowitz Seminar Room, Wolfson Medical School,
[University of Glasgow](http://www.glasgow.ac.uk)

Please join us for the 2nd meeting of the SINAPSE topic group for **imaging in Psychology research** (MRI, fMRI, EEG, MEG...)

This event will provide opportunities to hear (and present!) the latest research, receive input on projects-in-progress, and network with fellow neuroimagers. We invite presentation as short talks (15 mins), or research in progress (10 mins), and encourage students/ECRs.

Research will be discussed in an open environment with the aim of stimulating further collaborations between SINAPSE groups.

Contact: Donald.Lyall@glasgow.ac.uk
