Radiochemistry and Tracer Development

Friday 18th March 2016

10:30-16:30

University of St Andrews

Researchers in Scotland will present their work on radiochemistry and tracer development with a particular focus on the synthesis and application of new radiotracers. The meeting will provide an opportunity for early career scientists and students in the field to present their work. Research will be discussed in an open environment with the aim of stimulating further collaborations between SINAPSE groups.

More details to follow

The following Universities are charitable bodies, registered in Scotland, with registration numbers as below.
